Dear Sir/Madam,

Indian Citation Index (ICI) is the only National Bibliographic and Citation Index Database to map research performance of Individuals, Institutions, Regions, Cities, etc. ICI is a multi disciplinary database of research articles published in journals of India. You are aware that the coverage/indexing of the journal published from India are very insignificant in foreign sources, therefore, to represent Indian research content adequately and enhance its global visibility, ICI has been developed and made accessible to academic community. It will be pertinent to mention that ICI is well recognized by **MCI**.

We are happy to inform you that your journal titled " Indian Journal of Basic and Applied Medical Research " has been selected for Indian Citation Index (ICI) as per its evaluation done on defined journal selection policy of ICI which may be referred from ICI site (www.indiancitationindex.com). In view of this, it is felt that your above named journal be indexed in ICI for national and global visibility & scholarly use. For this purpose, we will need this journal's published articles data in XML+PDF format.

We wish for an early response & cooperation on this issue.

Regards,

Jyotsna Pal
